PREFACE.

The following Catalogue of Books, prepared by direction of the Committee of Management of "*The Library Association of Friends of Philadelphia*," has, at very considerable expense and labor, been especially arranged for the accommodation of persons using the Library, and in a manner calculated to afford every facility for selecting such books as may suit the respective tastes of readers, without their being compelled to search the entire Catalogue. For this purpose it has been divided into six classes, and will be found not only valuable for persons able to visit the room, but more particularly for those whose engagements or infirmities preclude this; being thus enabled to select with more ease and certainty *at home* such works as they desire to procure.

Blank leaves have also been added for the convenience of recording works hereafter introduced into the Library. The books in the room are similarly classified in separate cases, and form a valuable collection of nearly *Four thousand volumes.*

It may not be amiss to give some extracts from the last Annual Report of the Committee of Management.

After stating that the Library had been in existence *seventeen years*, it remarks:—

"For the past few years it has steadily and rapidly increased, and has now assumed an importance, as an Institution founded by, and belonging to members of the Society of Friends in this city, that is by no means insignificant, as the appreciation in which it is held by them amply corroborates.

"In consequence of the Library being closed during a portion of the year for re-arrangement, no continuous statement of the number of books taken out can be furnished, but it may be well to give the following, viz:

	To Females.	To Males.	Total.
During the First Month, Volumes loaned,	167,	157,	324,
Second do do do	186,	158,	344,
Third do do do	226,	197,	423,
Fourth do do do	231,	178,	409,
	810,	690,	1500.

Making a total in *four months only* of Fifteen Hundred Volumes.

During the year* the addition to the Library by purchases and donations, has been 407 volumes."

Extract from the Minutes,

JACOB M. ELLIS, *Clerk.*

Philadelphia, 1*st month*, 1853.

* In consequence of the re-arrangement, the *year's* purchases embraced a period of only about *eight months.*

☞ *Explanation.*—Where there are two or more numbers in the margin, without any mention of the word *volumes* following, it means there are so many *copies* of the work corresponding with those numbers respectively, as on page 5, thus: "71—81—Alfred the Great."
